MONEY, STOCKS AND GRAIN

Much Better Feeling in New York Financial Circles Early in the Day.

Later, However, on the Failures in Chicago, a Heavy Slump Set In-Indianapolis Cereals Went Still Lower.

THE BOND MARKET.

Railway Issues Opened Steady but Weakened in Sympathy with Stocks. At New York, yesterday, money was easier on call, ranging from 3 to 8 per cent., the last loan being made at 6, closing offered at 6.

Prime mercantile paper, 8@12 per cent. Sterling exchange was steadier with actual business in bankers' bills at \$1.791/2 @ 4.80 for sixty days, and \$4.82 2 @4.824 for demand.

Silver certificates were quiet with sales at 704, closing at 704 bid. Sales of silver certificates 10,000 ounces. Bar silver closed at 704; Mexican dollars at 58%. At London bar silver closed at 32 11/16d.

There was a decidedly improved feeling on the New York Stock Exchange and in financial circles generally yesterday morning, owing chiefly to the unexpectedly heavy engagements of gold in London and on the continent for shipment to this side. for delivery purposes, the lower rates for money on call and the heavy exports of grain induced purchases of stocks for both the long and short accounts. Bears found it difficult to cover, and the result was a sharp advance. American Tobacco rose 5. to 50; Manhattan 5, to 109; General Electric 3%, to 43%; Sugar 34, to 68; American Cotton Oil. 3%, to 28%; Big Four 21/2, to 311/2; Burlington & Quincy 24, to 74; Chicago Gas 14. to 114; Lackawanna 34, to 1334; Delaware & Hudson 2%, to 100; Lake Shore 24, to 1104; Lead pre-2, to 53, and Western Union to 751. During the afternoon bears raided the market on the Cudaby failure at Chicago and reports of probable further embarrassments in Chicago to-morrow. The list was severely hammered, and a decline of 1 to 14 ensued. There was no excitement, however, and the dealings were on a comparatively small scale. Manhattan fell 34, to 1054; American Cotton Oil, 3%, to 25; Burlington & Quincy, 2%, to 71%; Chicago Gas, 34, to 40; Distillers', 2%, to 14; General Electric, 3%, to 40%, and Western Union, 24, to 78%. Speculation left off steady in tone.

Railway bonds opened firm, but afterwards weakened in sympathy with the decline in stocks. The sales were \$959,000. Chicago & Erie firsts fell 2, to 87, and Ohio Southern fours 3, to 42. Erie consol seconds rose 2, to 6142, and General Electric debenture fives, 3, to 64. Government bonds were quiet and State bonds were dull. Closing quotations were:

LOCAL GRAIN AND PRODUCE.

Trade Brightens Up Some with Few First of August Fluctuations in Values.

The wholesale streets yesterday presented more activity, and there is a feeling that this month is to show a decided improvement in business, although classed as a summer month. In prices yesterday there were but few changes. Sugars and coffees are easier in tone. The consumption of sugars in July was not as large in this section as usual, owing to the light crop of the small fruits. The peaches, tomatoes and lemons offered on this market are unusually small and poor in quality, although sold at prices good stock usually sells at. Without question Indianapolis is getting the second-class shipments, the finer qualities going on to Chicago. This is the more singular as lower prices are paid in Chicago than at Indianapolis, as has been demonstrated in numerous cases. Dry-goods men report a little improvement in trade in the way of replenishing of broken stocks, and merchants are beginning to talk about fall and winter goods and the probable range | \$28.50. Extra charge for printing.

The local grain market had more snap yesterday to it. Wheat advanced 2c from Monday's bid, while several grades of corn went off 4c. Oats were in stronger postruled as follows: Wheat-No. 2 red, 52c; No. 3 red, 48c; re-

ected by sample, 35@40c. Corn-No. 1 white, 384c; No. 2 white, 384c; No. 3 white, 38c; No. 4 white, 30@35c; No. 2 White mixed, 3742c; No. 8 white mixed, 87c; No. 4 white mixed, 80@35c; No. 2 yellow, 870: No. 3 yellow, 361/2c; No. 4 yellow, 30@ 850; No. 2 mixed, 37c; No. 3 mixed, 361/2c; No. 4 mixed, 30@35c; sound ear, 37@39c for

Oats-No. 2 white, 30c; No. 3 white, 28c; No. 2 mixed, 264c; No. 3 mixed, 26c; rejeeted, 26@28c; new No. 2 white, 28c; new No. 2 mixed, 24 tc. Rye-No. 2, 40e for car lots; 40e for wagon

Hay-Choice timothy, \$14.50; No. 1, \$14; No. 2, \$11@12; No. 1 prairie, \$7; mixed, \$8; clover, 89. Bran. \$11.

BIG FORTUNESSWEPT AWAY

Black Day for Several Brokers Who Thought They Had a Corner in Pork.

John Cudahy, Charles Wright and Others Forced to the Wall and the Price of the Barreled Article Tumbles \$9.

TRADING AT CHICAGO.

Wheat Went Off, but Corn and Oats Held Comparatively Firm.

CHICAGO, Aug. 1 .- The sensational collapse in wheat prices of late was eclipsed on the board to-day by a bigger tumble in provisions, caused by the failures of the men who have been manipulating the market for some months past. Pork was the first article to burst into activity this morning. The price of September, which was nominally \$19.25 at the close of the market yesterday, dropped to \$10.50 in the course of the first hour's trading. It was known among the provision brokers on the curb. before the market opened, that there would be trouble in the pork pit. For several days the leading operator in the pork deal had been slow in putting up margins, and, as he was credited with carrying some fifty thousand barrels of that commodity, it was believed to be only a question of time when the stringency would compel him to let go. It was at once seen that he had lost control when, after half an hour of the session had passed. Secretary Stone announced that J. C. Steever & Co., E. W. Bailey & Co. and A. C. Helmholz, brokers for Wright, had ordered their trades closed. It then became simply a matter of consideration as to what was the value of pork measured by the price of hogs. The trade appeared to settle down to an opinion that somewhere in the neighborhood of \$11 per barrel was about what it was worth. The amount of business done was limited compared with what might have been expected from such an enormous depreciation in value, but the fact seems to have been that there was very little open interest in the market, as the trade had for months warned their customers away from it. When trading commenced the state of uncertainty was such that an offer to buy 250 barrels of September pork at \$19 per barrel met with no response from sellers. The bid was immediately withdrawn, and the first transaction was in 250 barrels at \$18.75. The price then dropped about 50 cents per barrel on each fresh sale, down to \$16. The announcement of the failure of the North American Packing Company, a moment later, brought the price down to \$10.50. It recovered to \$11.75, and then set-tled down again to \$11. While pork was in the throes of dissolution, lard and ribs were, in comparison, well maintained. September lard opened at 9.750 and declined in sympathy with the break in pork to 9.50c. From this figure it had recovered slightly when, at 12:35 o'clock, the trade was suddenly paralyzed by the announcement that all trades with John Cudshy were ordered closed out. John Cudahy twelve months ago was rat-d as being worth from \$3,000,000 to \$4,000,000, consequently the shock was too much for the traders' nerve, and the price of September lard tumbled from 9,600 to 60 in two seconds after the announcement, and ribs, which had not been so much inflated, declined in the same time from 6.974c to 5.95c. Hog receipts were small, only 11,000

ters, however, did not count for anything in to-day's trading. Prices stiffened a little at the close. September pork left off at \$12. September lard at 6.60c and September ribs at 6.22120. The wheat market opened with a boom. September found buyers at from 60% c to 6le, and for a time everything looked tavorable for a buil session, but the failures which were announced from time to time kept knocking the underpinning from the market and finally the failure of John Cudahy and that of Wright & Haughey completely upset all the good of earlier bull

news and left the market near the lowest

head having been received, but the market

for them was weak. To-morrow's receipts

were estimated at 20,000 head. Such mat-

price for the day, or %c lower than yester-Corn and oats were the green spots in an arid desert. They closed equal or higher than on the day before, and there was a fairly active trade, notwithstanding the demorilization in the neighboring pits. The failed concerns were short on these two articles, consequently prices were helped. and not weakened, on the announcements of the failures. September corn opened strong from 3842c to 3854c, sold as low at 3742c and recovered to 3854c, closing at 58 sc bid. The local receipts numbered 861 cars. September oats sold off early from 23% c to 22% c. but speedily recovered selling ap to 28% @234c and closed at 234c.

May closed at 28 sc. Freights were slow and easy at 1 % @140 for wheat and le for corn to Buffalo. Estimated receipts for to-morrow are: Wheat, 125 care; corn. 220 cars; oats, 180 cars; hogs, 20,000. The leading futures ranged as fol-

lows:

Chicago Mail Don't tell a child that its sorrow over a broken toy is "nothing." Don't try to mend the disappointment of little people with "Never mind: you may. perhaps, do so some other time.'

Transfers, 12; consideration.....\$22,795.00

It is worse than being thoughtless to laugh at the tears of these very young folks when their pleasures are spoiled or when they fall downstairs. Don't treat any of their hurts lightly for, although children do not weigh as much as the grown up human sort, either in intelligence or physique, they suffer as bitterly. And their griefs are as mo-

mentous to them as are "trials" of various kinds to the adult individual. Give to children plenty of sympathy when they are injured and disappointed. Always deal out the belpful and encouraging quality. Don't guy at their weakness and failures, at the same time telling them to "brace up like little men and women and don't be

silly any more." You know very well that lots of men and women tamble right into their own collapses and whine, waiting for somebody to lend a helping hand and a Dont expect more good sense of a child than you use in your own transactions. And don't be surprised when these little ones do not seem thankful to be living

when mothers, and fathers, and "big

brothers and sisters" do many things to

Cheese as Food.

make them feel otherwise.

Hoard's Dairyman. Edward Atkinson is noted for the practical turn of his mind in the use of figures. He seems to possess the faculty, above all other statisticians in the country, of picking out from a mass of figures their practical teachings. There is no more reliable authority on statistics; at the same time there is none that develops so much homely, practical instruction from his facts. As an illustration, at a recent meeting in the East Mr. Atkinson took up the very

forbidding topic of skimmilk ("white oak" cheese. To show the value of this cheese as food he compares it in its constituents with the best sirloin beef, from which it appears that a pound of protein (of which a man engaged in active labor needs one-quarter of a pound per day) can be secured in the form of skim cheese at a cost of 13 cents, while a pound of protein in the form of sirloin steak would cost \$1.06. Notwithstanding the exceeding cheapness and nutritionsness of such cheese, it is a well-known fact that very little is eaten by either rich or poor, because, as Mr. Atkinson thinks, the people are ignorant of the proper way to eat it. Raw, it is indigestible and not over palatable, but if cooked in any one of the numerous ways suggested by this apostle of better and cheaper living, it is said to be agreeable and wholesome.

Advance in Bee Culture.

Field and Farm. The science which has ever kept the lead of practice in bee culture has discovered that the laws of breeding hold just as truly among bees as among our higher animals. that there is quality among bees, and that by selection we may greatly improve our honey bees. Thus, queen rearing. a thing entirely unthought of fifty years ago, is now an industry in itself, and bees are bred with all the care and success that waits on the best breeders of horses or cattle. More than this, these queens are shipped around the world. Men have studied out the requirements, so that now we have cages and food that make it safe

THE

INDIANAPOLIS JOURNAL

DAILY.

SUNDAY

AND

WEEKLY

The Journal's price for daily is only 15 cents a week, and it has a very wide circulation, reaching a large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribera indicate a continued increase, and that what used to be regarded as a luxury has become a necessity. The new readers not only remain, but they are constantly increasing.

It is the purpose of the Journal to make itself even more indispensable to its patrons, new and old, and to still further widen its field. To this end it will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs are given especial prominence and importance. This want the Journal has always supplied as no other paper pube lished outside or inside the State is able to do; but the rapidly developing industries and business and social enterprises of the community call for additional consideration and space, With this in view its corps of correspondents has been increased until it has a representative in nearly every town in the State. Special traveling correspondents will visit the news centers of the State at frequent intervals, thus insuring the "write up" of every important event or matter of general interest.

Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of greater consequence, is able to reach its subscribers without delay. The ruuning of morning trains from Indianapolis is very favorable to the early distribution of papers sent by mail or express, and in most towns within a radius of a hundred miles Journals are delivered as early as in the city where they are printed. In the more remote counties there is but little loss of time in trans-

The Journal is the paper for Indianians and particularly for Indiana Republicans. The change of administration involves the settlement of political problems likely to be of the most direct personal concern to every farmer and business man in the State. All such matters will be set forth in detail the Journal's Washington correspondent being instructed to give especial attention to everything having a possible bearing on Indiana interests.

But though the Journal is Republican in politics it is non-partisan in the publication of news. Its constant endeavor is to secure facts unbiased by prejudice and to make its columns trustworthy records of each day's happenings. A large editorial force supplements the work of the press associations and the correspondents, and furnishes careful supervision for each department.

The Sunday Journal has a well-established literary character, superior to that of any Western paper. It is not defaced by "plate matter" nor filled with a heterogeneous mass of syndicate literature, but its contributions and miscellany are chosen with a view to their special fitness and adaptability to the tastes of the readers. The reading matter in any given number of the Sunday Journal is equal in quantity and is not inferior in quality to that found in the leading magazines. As an educational adjunct and a source of entertainment the Sunday Journal is indispensable in every well-regulated family.

The Weekly Journal, at \$1 per year. contains more reading matter than can be obtained for the money in any other shape. It is carefully edited and offers the news of the week in condensed shape and a variety of miscellany. agricultural and household literature that render it one of the best investments that any family can make. Try it and see. It has a large circulation in this and other States and agents find it an easy matter to secure large lists of subscribers. Special inducements offered to agents. Circulars sent on appli-
